Section 4: First Aid Measures

4.1 Description of first aid measures:

Eyes: Immediately flush eyes with copious amounts of water for at least 15 minutes, lifting the upper and lower eyelids. Seek immediate medical attention - ophthalmologist recommended.

Skin: Immediately flush skin with copious amounts of water for at least 15 minutes. Seek medical attention immediately. Wash clothing before reuse. Destroy contaminated shoes.

Ingestion: DO NOT INDUCE VOMITING. Urgently seek immediate medical attention. Do NOT give anything to drink. Call a poison control center. Oral toxicity of Glutaraldehyde increases with dilution - drinking water can enhance the toxicity.

Inhalation: Seek medical attention immediately. Remove to fresh air. If breathing is difficult, administer oxygen. Do NOT use mouth-to-mouth resuscitation. If breathing has ceased apply artificial respiration by use of oxygen and suitable mechanical device such as a bag and a mask.

4.2 Most important symptoms and effects, both acute and delayed:

No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed:

Notes to Physician: Treat symptomatically and supportively.

Section 5: Fire Fighting Measures

5.1 Extinguishing media: Non-flammable. After the water evaporates, the remaining material will burn. Use alcohol-type or all-purpose-type foam applied by manufacturer's recommended technique for large fires. Use CO² or dry chemical media for small fires.

General Information:

Flash Point: None, Tag Closed Cup (ASTM D56).

Flammable limits: Not determined (aqueous system).

5.2 Advice for firefighters: Use self-contained breathing apparatus and protective clothing.

Section 6: Accidental Release Measures

6.1 Personal precautions:

General Information: Use proper personal protective equipment as indicated in Section 8. Clean up spills immediately, observing precautions listed in the Protective Equipment section.

6.2 Environmental precautions:

Spills/Leaks: Avoid runoff into storm sewers and ditches which lead to waterways.

6.3 Methods and material for containment and cleaning up:

Absorb spill using absorbent, non-combustible material such as sand, earth, or vermiculite. Provide ventilation.

Section 7: Handling and Storage

7.1 Precautions for safe handling:

Handling: Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with eyes, skin or clothing. Use only with adequate ventilation. Avoid breathing vapor.

7.2 Conditions for safe storage, including any incompatibilities:

Store at 4 °C.

Keep container tightly closed when not in use.

Store in cool, dry, well-ventilated area away from incompatible substances.

Refrigeration recommended.

7.3 Specific end uses:

Component of Karnovsky's Fixative.

This material is not being offered for clinical or diagnostic applications, agricultural uses or for human or animal consumption.

Section 8: Exposure Controls and Personal Protection

8.1 Control parameter and Personal Protection:

Workplace exposure limits:

Chemical Name	ACGIH	NIOSH	OSHA - Final PELs
Glutaraldehyde	0.05 ppm Ceiling	none listed	0.2 ppm
Water	none listed	none listed	none listed
OSHA Vacated PELs:			
None listed			

Biological limit values: No data available.

8.2 Exposure controls:

8.2.1 Appropriate engineering controls: Use local exhaust ventilation or other engineering controls to maintain airborne levels below recommended exposure limits. An eyewash facility and a safety shower should be readily available.

8.2.2 Individual protection measures:

Eyes: Wear chemical splash goggles and face shield.

Skin: Wear chemical resistant gloves to prevent skin exposure. Gloves should be removed and replaced immediately if there is any indication of degradation or chemical breakthrough. Rinse and remove gloves immediately after use. Wash hands with soap and water.

All glove recommendations presume that the risk of exposure is through splash, and NOT intentional immersion of the hands into the product.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or if symptoms are experienced.

8.2.3 Environmental exposure controls: No further relevant information available.
