## Additional Features

### Pricing varies

If you find your site can benefit from features not included in the basic package, please don't hesitate to contact us! We've done many customizations for clients and are also in the process of creating add-ons to our basic package. You'll benefit from our years of consulting and programming in the MAS 90 environment.

Here are some examples of custom features we've done for clients:

- ⇒ **Multiple Images** -- a UDF is created within MAS 90 for each image. Website can display several images for each item, giving the customer different views of the item
- ⇒ **Documents** Links to downloadable documents added in MAS 90/200 item file can be displayed on the website
- ⇒ **Up-Sell** Suggested items will be displayed at checkout. Items are maintained in MAS 90/200
- ⇒ Image "zoom" Images can be displayed with a magnified "close up" view, allowing customers to inspect items in detail
- ⇒ **Rewards Program** Customers can earn points with each person that can be applied against future orders
- ⇒ **Coupons** Coupon codes can be entered into MAS 90/200 and used on the website by customers, making this a valuable tool for tracking marketing campaigns
